Exclusively for Contractors

T855i WIFI Thermostat

The universal T855i connected thermostat will work on almost any system. Whether it is a multi-stage system, a light commercial building or just a homeowner who wants auto changeover and a large display, the T855i is a great choice.

Easy Setup

If you know how to install any Pro1 thermostat than you know how to install a connected model. The quickstart guide will walk the homeowner through the WIFI linking procedure.

WIFI Optional

All thermostats are fully functional without internet access. Unknown network password? New construction? No problem. Pro1 will help the homeowner get it connected when they get home.

Universal Subbase

Fast, easy upgrade from existing Pro1 thermostats.
No additional wiring necessary as long as C is connected.

Smart Grid Capable

Works with many utility incentive programs.
Learn more from your professional installer or Vive representative.

Private Label

Contractor contact info displayed in mobile app and on magnetic badge of thermostat to generate return business.

Active Alerts

Receive alerts from anywhere.
High and low temp. limits, connection status, and more.

T701i - Basic Model
1 Heat, 1 Cool Conventional

Smart Grid Capable

Utility companies offer rebates, rate reductions and other incentives to homeowners who opt into demand response programs. These programs allow the utility companies to scale back energy usage during peak time periods. To learn more contact your professional technician or local Pro1 sales representative.

Save from Anywhere

Control and monitor the system's performance from anywhere. Homeowners can choose to receive tips on ways to maximize energy efficiency throughout the year.

The Active Alerts send notifications to your smart device if the system is not working correctly.
